

ABHISHEK RANJAN

Patna, Bihar

☎ +91-7250368898 ✉ ranjanabhi3158@gmail.com [in LinkedIn](#) [GitHub](#) [LeetCode](#)

PROFILE SUMMARY

MCA Postgraduate from NIT Raipur with specialization in Data Analysis, Machine Learning, Python and SQL. Proven record in processing multi-million row datasets, exploratory data analysis (EDA), and building predictive models. Demonstrated technical consistency with 900+ coding questions solved across LeetCode and GeeksforGeeks, focused on delivering data-driven business insights.

EDUCATION

National Institute of Technology, Raipur
Master of Computer Applications - CPI: 9.26

2024 – 2027
Raipur, Chhattisgarh

Patna Science College, Patna University
B.Sc. in Computer Applications - CGPA: 8.57

2020 – 2023
Patna, Bihar

TECHNICAL SKILLS

Languages: Python, SQL, C++, C, Java, JavaScript, TypeScript
Analytics: Machine Learning, EDA, Pandas, NumPy, Scikit-learn, Power BI
DB/Tools: PostgreSQL, MongoDB, Oracle, Firebase, Git, GitHub, Jupyter Notebook, Excel, VS Code
Tools/Frameworks: ReactJS, NodeJS, ExpressJS, REST APIs, Spring Boot, Bootstrap, HTML5, CSS3, Tailwind CSS

PROJECTS

BoT-IoT Attack Prediction Model 🛡️ | Python, Scikit-learn, Pandas, XGBoost

2026

- Executed exploratory data analysis (EDA) on 3M+ log records to isolate and engineer top 15 predictive features.
- Classified network attack traffic with 99.9% accuracy and a 0.99 F1-score using optimized XGBoost gradient boosting.
- Reduced false positive classification rates to under 0.1% through systematic hyperparameter optimization.

Path Sudhaar 🛡️ | ReactJS, Spring Boot, MongoDB, REST API

2026

- Architected a full-stack data logging platform managing 100% of community-reported infrastructure issues.
- Designed database schemas supporting real-time data tracking and role-based access for 3+ user roles.
- Optimized RESTful backend services to handle concurrent data processing with low query latency.

Student Record Management System 🛡️ | Python, PyQt5, SQLite3

2023

- Engineered a database management system for 100+ user records, achieving a 50% reduction in manual data entry overhead.
- Implemented indexed SQL query optimizations, reducing record retrieval response time by 70%.

INTERNSHIP

CDAC Noida | Virtual Intern (Cyber Gyan Project)

May 2025 – June 2025

Ethical Hacking and Penetration Testing

Noida, UP (Virtual)

- Simulated 10+ attack scenarios to evaluate web security headers (X-Frame-Options, CSP) and threat metrics.
- Developed a real-time browser extension detecting iframe-based security vulnerabilities with 80% accuracy.

ACHIEVEMENTS & CERTIFICATIONS

- **630+ LeetCode Problems Solved** | (Max Rating: 1690)
- **GATE 2026 CS Qualified** | Score: 484 (AIR: 8659 out of 2.1L+ candidates)
- **Top 10 Performer (Rank 5)** | 30 Days of Code Challenge by Turing Club of Programmers, NIT Raipur
- **NIT Trichy Version'25** | Selected in 10-member team to represent MCA branch at NIT Tiruchirappalli
- **GeeksforGeeks Milestones** | 300+ Problems Solved | **160 Days of Coding Challenge** | **60 Days POTD Challenge**
